User Manual (Urdu, English)

Getting Started Guide

Warranty Card

Bottom foam packing piece – important to keep this!

Top foam packing piece – keep this with carton in case you need to return the unit for repairs later

Tent in carry bag inside carton with L and S adapters inside

## UPS Recommendation for Lahore

We recommend sine wave UPS inverters. While a square wave UPS inverter (such as EcoStar) can be used, there is some additional noise from the fan motor.

Our recommendation: APC Sine Wave UPS 1500 VA Model (Reconditioned)

Available from:

ESSA Electronics (Arslan Ali Khan)

Abid Market Shop, 126 Temple Road, Lahore

Tel: 042 3724 8182, Email: raoarslan1234@gmail.com

## Battery Recommendation for Lahore

We recommend you purchase deep cycle lead-acid traction batteries. IF zero maintenance is a requirement, we suggest AGM or Gel Batteries.

If you can provide regular topping up with de-mineralised water (condensed inside your PC8 air conditioner) we recommend TAB tubular traction batteries, available from:

Wajjid & Sons (Abdul Rehman Wajjid)

Qartaba Chowk, Muzang Chungi (Beside Sanam Building), Lahore

Tel: 042 3742 6066, 0321 114 6664

Email: [wajjidsons@gmail.com](mailto:wajjidsons@gmail.com), Facebook: wajjidsons1

Also at: Defence More, Main Walton Road (Beside Khan Tower), Lahore Cantt
